#### WARNING

| Hazard statements           | <ul> <li>Harmful if swallowed</li> <li>Causes skin irritation</li> <li>Causes serious eye irritation</li> </ul>   |
|-----------------------------|---|
| Precautionary<br>statements |   |
| Prevention                  | <ul> <li>Wash thoroughly after handling.</li> <li>Do not eat, drink or smoke when using this product.</li> <li>Wear protective gloves/protective clothing/eye protection/face protection.</li> </ul>  |
| Response                    | <ul> <li>If skin irritation occurs: Get medical advice/attention.</li> <li>Specific treatment, see supplemental first aid information.</li> <li>Take off contaminated clothing and wash before reuse.</li> <li>IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.</li> <li>If eye irritation persists: Get medical advice/attention.</li> <li>IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician if you feel unwell.</li> <li>Rinse mouth.</li> </ul> |

Storage/Disposal • Dispose of content and/or container in accordance with local, regional, national, and/or international regulations. Keep out of reach of children.

# 2.3 Other hazards

- OSHA HCS 2012 니
  - Under United States Regulations (29 CFR 1910.1200 Hazard Communication Standard), this product is considered hazardous.

Canada According to: WHMIS

#### 2.1 Classification of the substance or mixture

WHMIS • Toxic - D1B

Other Toxic Effects - D2B

# 2.2 Label elements

#### WHMIS

Toxic - D1B
 Other Toxic Effects - D2B

#### 2.3 Other hazards

**WHMIS** • In Canada, the product mentioned above is not considered hazardous under the Workplace Hazardous Materials Information System (WHMIS).

See Section 12 for Ecological Information.

# Section 3 - Composition/Information on Ingredients

### 3.1 Substances

| Composition                     |                           |      |                         |   |          |  |

# 3.2 Mixtures

• Material does not meet the criteria of a mixture in accordance with Regulation (EC) No 1272/2008.

See Section 11 for Toxicological Information.

```
Section 4 - First Aid Measures
```

#### 4.1 Description of first aid measures

| Inhalation | <ul> <li>Move victim to fresh air. Administer oxygen if breathing is difficult. Give artificial respiration if victim is<br/>not breathing. Seek medical attention immediately.</li> </ul>    |
|------------|---|
| Skin       | <ul> <li>Immediately wash skin with soap and water for at least 20 minutes. Remove contaminated clothing and<br/>wash before reuse. Seek medical attention if irritation persists.</li> </ul> |
| Eye        | <ul> <li>Immediately flush eyes with running water for at least 20 minutes lifting upper and lower eyelids occasionally. Get medical attention immediately.</li> </ul>                        |

• Do NOT induce vomiting. Rinse mouth. Do not give anything by mouth to an unconscious person. Call a physician or poison control center immediately.

#### 4.2 Most important symptoms and effects, both acute and delayed

• Refer to Section 11 - Toxicological Information.

#### 4.3 Indication of any immediate medical attention and special treatment needed

All treatments should be based on observed signs and symptoms of distress in the patient.
 Physician
 All treatments should be given to the possibility that overexposure to materials other than this product

may have occurred.

# Section 5 - Firefighting Measures

### 5.1 Extinguishing media

| Suitable<br>Extinguishing<br>Media    | <ul> <li>Use extinguishing agent suitable for type of surrounding fire.</li> <li>Water spray may be used to keep fire exposed containers cool.</li> </ul>   |
|---------------------------------------|---|
| Unsuitable<br>Extinguishing<br>Media  | None known.   |
| 5.2 Special haza                      | rds arising from the substance or mixture   |
| Unusual Fire and<br>Explosion Hazards | <ul> <li>Not flammable or combustible but may decompose in the heat of a fire to produce corros<br/>and/or toxic fumes.</li> <li>Sealed containers may rupture during fire conditions from pressure water vapor release.</li> </ul> |
| Hazardous<br>Combustion<br>Products   | <ul> <li>Sulfur oxides and copper fumes.</li> </ul>   |
| 5.3 Advice for fir                    | refighters  |

 Wear full protective clothing and NIOSH-approved self-contained breathing apparatus with full facepiece operated in the pressure demand or other positive pressure mode. When heated above 110C (302F) material will melt. Avoid using a direct water stream on molten material as it may cause splattering. Dike fire control water for disposal.

corrosive

#### Section 6 - Accidental Release Measures

#### 6.1 Personal precautions, protective equipment and emergency procedures

- Personal Precautions • Ventilate area of leak or spill. Contain the discharged material. Wear appropriate personal protective equipment.
- Emergency Procedures Keep unauthorized personnel away.

#### 6.2 Environmental precautions

Prevent entry into waterways, sewers, basements or confined areas.

#### 6.3 Methods and material for containment and cleaning up

**Containment/Clean-up** • Sweep up without creating a dust cloud, mark & store as hazardous waste. If not sweepable, Measures collect on absorbent material, store as hazardous waste. Use EPA approved hazardous waste disposal site. Follow applicable local, state, and federal regulations.

#### 6.4 Reference to other sections

 Refer to Section 8 - Exposure Controls/Personal Protection and Section 13 - Disposal Considerations.

# Section 7 - Handling and Storage

# 7.1 Precautions for safe handling

Handling • Do not use in areas without adequate ventilation. Avoid contact with skin and eyes. Do not ingest. Wash thoroughly after handling. Use good safety and industrial hygiene practices.

# 7.2 Conditions for safe storage, including any incompatibilities

**Storage** • Store in a well-ventilated place. Keep container tightly closed. Protect against physical damage. Keep away from incompatible materials. Store in cool, dry, ventilated area away from sunlight. Containers may be hazardous when empty since they retain product residue. Keep out of reach of children.

# 7.3 Specific end use(s)

• To kill the roots of trees and plants invading sewer lines.

# **Section 8 - Exposure Controls/Personal Protection**

#### 8.1 Control parameters

# 9.2 Other Information

• No additional physical and chemical parameters noted.

# Section 10: Stability and Reactivity

# 10.1 Reactivity

• No dangerous reaction known under conditions of normal use.

# 10.2 Chemical stability

• Hygroscopic but stable when kept dry, under normal temperatures and pressures.

# 10.3 Possibility of hazardous reactions

• Hazardous polymerization will not occur.

# **10.4 Conditions to avoid**

• Incompatible materials. Substance will ignite Hydroxylamine. Solutions are acidic and can react with magnesium to evolve flammable hydrogen gas. May react with acetylene to form dangerous acetylides. Avoid high temperatures and exposure to air.

# 10.5 Incompatible materials

• Incompatible Materials: Hydroxylamine, magnesium, and reducing agents. This product can corrode aluminum, steel, and iron. Copper sulfate pentahydrate is incompatible with alkalines, phosphates, acetylene, hydrazine, and nitromethane.

# 10.6 Hazardous decomposition products

• Sulfur oxides and copper oxides.

| 0.024 mg/L                    | Water Flea: NDA     | 48 Hour(s) | EC50      | NDA                 | NDA      |  |

#### 12.2 Persistence and degradability

• This material is not expected to biodegrade.

#### 12.3 Bioaccumulative potential

• This material is expected to significantly bioaccumulate.

#### 12.4 Mobility in Soil

• When released into the soil this material may leach into groundwater.

#### 12.5 Results of PBT and vPvB assessment

• No PBT and vPvB assessment has been conducted.

#### 12.6 Other adverse effects

• Harmful to aquatic life in very low concentrations. Copper Sulfate Pentahydrate is toxic to fish and marine organisms when applied to streams, rivers, ponds or lakes.

### Section 13 - Disposal Considerations

#### **13.1 Waste treatment methods**

| Product waste | • Dispose of content and/or container in accordance with local, regional, national, and/or international |
|---------------|--|
|               | regulations.   |
| Deekeeine     | Dianage of content and/or container in accordance with local regional national and/or international      |

• Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.

14.6 Special precautions for user • None known.

14.7 Transport in bulk according to • Not relevant.Annex II of MARPOL 73/78 and the IBC Code14.8 Other information

**DOT** • Special Provisions for Transport: Additional markings "Marine Pollutant" required for bulk shipments. These additional markings should be entered on the shopping paper in association with the basic DOT description.

# Section 15 - Regulatory Information

# 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

**SARA Hazard Classifications** 

• Acute, Chronic

# **15.2 Chemical Safety Assessment**

• No Chemical Safety Assessment has been carried out.
